By Dr. John Smith

We are all descendants of gods. This is not a metaphor or a poetic exaggeration. It is a literal fact.

In his groundbreaking book, *Moonprints We Were Gods*, Dr. John Smith uncovers the hidden history of humanity and our forgotten connection to the divine. Through meticulous research and groundbreaking insights, Smith reveals that we are not the first inhabitants of Earth, but rather the descendants of a highly advanced civilization that existed thousands of years ago.

This ancient civilization, which Smith calls the "Moon People," possessed incredible knowledge and technology. They were masters of astronomy,

mathematics, and engineering. They built massive structures that still stand today, such as the pyramids of Giza and the Great Wall of China.

The Moon People also had a deep understanding of consciousness and spirituality. They believed that we are all divine beings who have come to Earth to experience life in a physical body. They taught that our purpose is to evolve our consciousness and return to our divine source.

Over time, the Moon People's knowledge and technology was lost. They were forgotten by history, and their legacy was buried beneath layers of myth and superstition.

But now, in *Moonprints We Were Gods*, Dr. Smith has rediscovered the hidden history of the Moon People. He has pieced together the fragments of their knowledge and technology, and he has revealed their true purpose for being on Earth.

*Moonprints We Were Gods* is a groundbreaking book that will change the way you think about yourself and the world around you. It is a journey to rediscover our divine origins and reclaim our birthright as gods.

### **What You Will Learn in Moonprints We Were Gods**
