In the early days of the COVID-19 pandemic, as the world went into lockdown and fear and uncertainty gripped the hearts of millions, poet David Plumbley found solace in his craft. He began writing poems about the surreal and often heartbreaking experiences of living through a global crisis.

The result is *Songs From Quarantine*, a collection of poems that is both a haunting and hopeful reflection on a tumultuous time. Plumbley's poems capture the isolation, the fear, and the grief that many of us felt during the pandemic. But they also speak to the resilience of the human spirit, our capacity for love and hope, and the power of art to heal and connect us.

One of the most striking things about *Songs From Quarantine* is its honesty. Plumbley does not shy away from the darkness of the pandemic.

He writes about the fear of getting sick, the loneliness of being isolated, and the grief of losing loved ones. But he also writes about the small moments of joy and beauty that he found during this difficult time. He writes about the comfort he found in nature, the solace he found in art, and the love he shared with his family and friends.

The result is a collection of poems that is both deeply personal and universally relatable. Plumbley's words will resonate with anyone who has lived through the pandemic, and they will offer comfort and hope to those who are still struggling.

Here is an excerpt from one of the poems in the collection:

“In the quarantine of silence,

I hear the songs of my heart.

They sing of loss and longing,

Of fear and hope.”

Songs From Quarantine is a powerful and moving collection of poems that captures the spirit of a tumultuous time. It is a testament to the power of art to heal and connect us, and it is a reminder that even in the darkest of times, there is always hope.
